

Plan It Solar's MEGA-REBATE Sale!

Until March, all PV installations qualifying for the CA Solar Rebate will receive a higher-than-normal rebate from Plan It Solar! The sooner the install, the larger the rebate you'll receive!

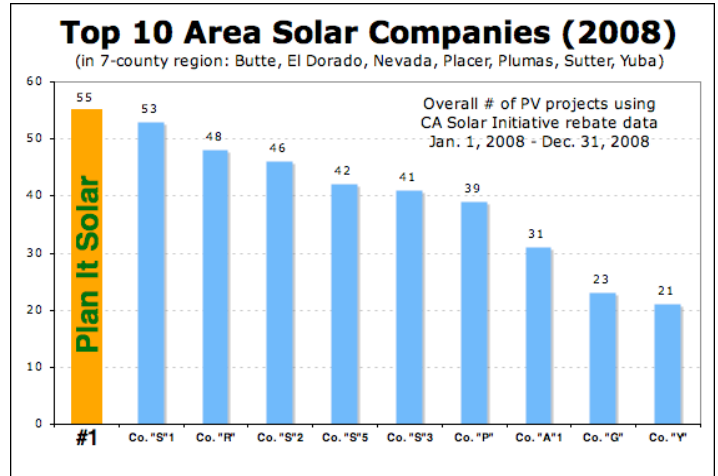

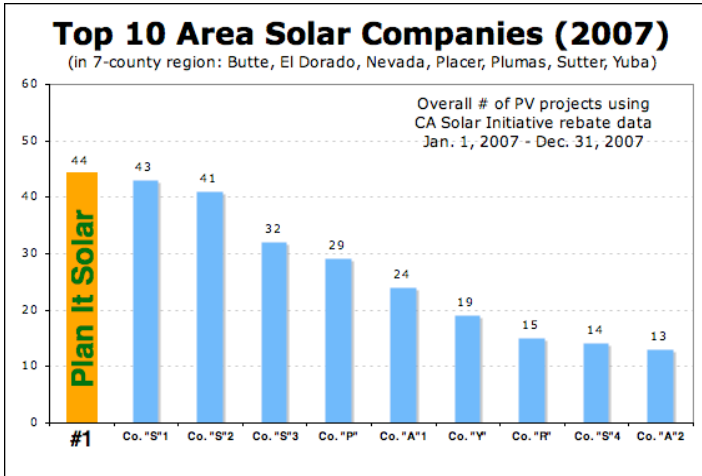

On August 24, 2009 the PG&E residential solar rebate dropped from \$1.55/W to \$1.10/W...

...but **Plan It Solar is offering our own rebate thru February:** Sept & Oct installs receive a **30% larger rebate**, Nov & Dec installs receive a **20% larger rebate**, and Jan & Feb installs receive a **10% larger rebate!** Don't settle for \$1.10/W: we'll add 10-30% more!!

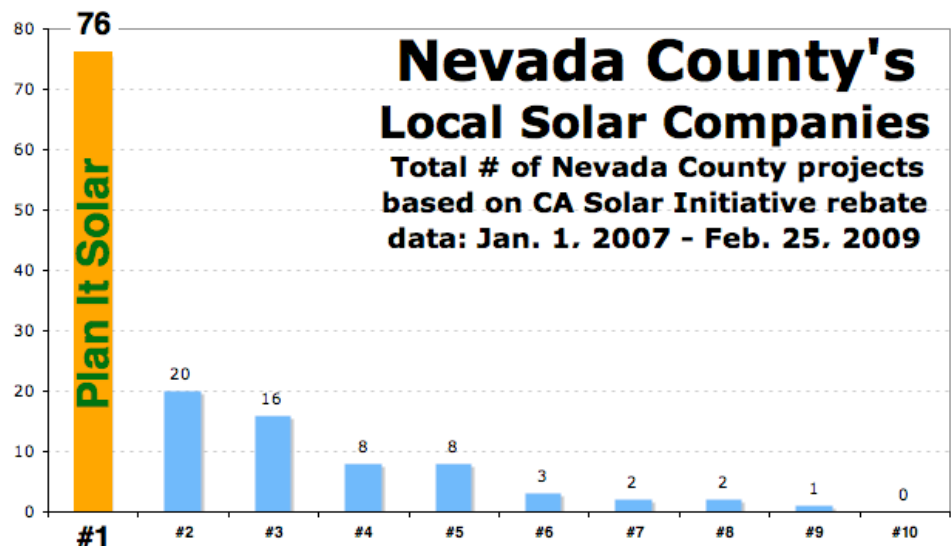

Plan It Solar is the #1 Solar Company in the 7-Co. Region of Northern California's Gold Country!

This isn't just another marketing scheme...these are the facts:

And with numbers like these, here's what you can count on:

- Plan It Solar has done more local installations than any other solar company
- We've processed more PG&E solar interconnection forms than other local companies
- PG&E office & field staff are more familiar with us than anyone else (and like us!)
- We're more familiar with local building departments and permit processes
- Local building inspectors are more familiar with us (and like us, too!)
- We're more trusted than any other local solar company, respected in the industry
- We're well known by manufacturers and distributors, with bulk volume pricing

In Nevada County we do more installations than all the other local solar companies...combined!
